

# One IMAGINE

Imagining the World Around You.

What makes a great picture into a great image is the intention of the photographer to disclose something about the scene, mood or character of the person they are photographing. Every photographic opportunity has its own style, challenges, and moments. My goals are to take a relaxed and modern approach to my photography using spontaneous character to capture images of you, your family/group, or event. My preference is to take pictures on location, but if you have ideas on what you are looking for, let's talk about it. I have a small portable studio with backgrounds that I can bring to you or whatever location we decide on.

These are your pictures. Whether you want more time, less prints, or whatever the desire, we can create a package that fits your liking, preference and budget. I know that one size does not fit all and I will work with you to give you exactly what you want.

My goal is to make you happy, and give you some pictures that you will be able to enjoy for years to come.

Luis D. Lugo

\*\* A 50% deposit for all packages is required to reserve your photo shoot. The remaining balance is due prior to shoot date.

Every wedding is unique and has its own style, challenges, and moments. My goal is to document your wedding not only with your posed and formal shots, but as it happens. Capturing those moments when people are themselves, wrapped up in the moment and not focusing on the camera is what distinguishes me as a photographer.

This is **your** day. Whether you want more time, less prints, or whatever the desire, we can create a package that fits your liking, preference and budget. I know that one size does not fit all and I will work with you to give you exactly what you want.

My goal is to make you happy, and make this momentous occasion one that you can look back on for many years to come.
